Would your family know what to do if you were seriously ill or injured and unable to communicate your healthcare wishes? Would they all agree? Would their decisions respect your values and beliefs? By creating an **advance directive**, you can spare your family the distress of making these hard choices on their own. Advance directives are binding documents that make healthcare wishes clear to family, friends and healthcare professionals. This presentation provides the materials, documents and instruction that enable you to start the process of preparing an advance directive — either a Power of Attorney for Healthcare or a Living Will. Having the materials may also help you feel more comfortable discussing your wishes with your family. The presentation is a must for anyone over 18 years old who wants to be in control of their future healthcare decisions. Thank you, **HospiceCare!**

\$1.00 per card **BINGO** will be played again at **2:00pm on Wednesday, September 22** in the Fireside Room.
